COURSE DESCRIPTION

Peak Capital Bootcamp focuses on 3 pillars of success in trading: **Technology, Strategy, and Psychology**

Technology: We partner with Tradervue to ensure each trader can analyze their trading quickly and effectively, in order to maximize their winning strategies and to either improve or eliminate losing strategies.

Strategy: Our experienced team of trading coaches and mentors ensure that each trader has a solid background in trading skills, strategies, and risk management practices. The training program is intense and efficient in order to help traders thrive. The curriculum is designed to both teach you new, proven trading strategies while also helping you maximize results of strategies you may already be utilizing.

Psychology: Peak has built a team of leading psychology and mindfulness experts to work with traders to increase their overall performance. We understand that a good mental state is not only important for successful traders to be successful but is essential for traders to perform at their best.

EQUIPMENT REQUIREMENTS

In order to complete certain course exercises, all candidates must have access to the following:

- Computer: (Windows PC Recommended)
- Minimum Core 2 Duo 2+GHZ processor
- Minimum 4GB of RAM
- Cable or DSL (At least 10/10 DL/UL speed recommended)
- Windows 7, server 2008 or higher
